

Laboratory Glassware

Laboratory Glassware

Jencons have a special category of **Laboratory Glassware** products for private institutes and scientific laboratories. In any Scientific Laboratory the most important part is the Quality of **Laboratory Glassware**. The borosilicate glass used to manufacture our **Laboratory Glassware** has a low coefficient of expansion. Thus this **Laboratory Glassware** is for resistance to heat, and a very high resistance to chemical attack.

Jencons has more than 2500 **Laboratory Glassware** products which are available ex-stock which are regularly required by the Laboratory of Schools, Colleges and Private Scientific as well as Chemical Laboratories.

Jencons **Laboratory Glassware** are very carefully packed in sturdy corrugated boxes to ensure that each **Laboratory Glassware** reach safe and intact to the Chemical Laboratories, Scientific Laboratories and Laboratories of different Schools and colleges without any damage.

Laboratory Glassware Manufacturer

Its a pleasure to introduce ourselves as a Preferred Manufacturer, Supplier and a Leading exporter of **Laboratory Glassware** and **Chemistry Glassware** such as Glass Beaker, Glass Tube, Glass Flask, Glass Condensers etc. with wide range as per customer requirement and also with best quality. As a leader in this field - our **Laboratory Glassware** are affordable.
